

Walk on the wild side

SIXTO PAZ WELLS - UFO CONTACTEE

by

JOANNE SUMMERSCALES

As per instructions received by Sixto Paz Wells, through automatic writing, he and a group of friends travel out to an isolated area of the Chilca desert, south of Lima, in Peru, to keep an appointment of a very different kind. It is 9pm on a February night. Suddenly, emerging from behind the dark hills, an object full of lights moves slowly toward the now panic-stricken group, descending to several metres above them. The friends, aged between 16 and 18, now terrified, experienced simultaneous communication, as if spoken directly into their ears, saying they don't know how to control their emotions, and need to prepare for the next contact. Eight months later, they go through the same motions in the same location again. This time, the Manta-Ray like craft, lands, and from the interior, a being descends. He is some 2.5 metres in height, of Scandinavian appearance, with blue eyes, who communicated with them on a mental level. This initial experience was to set the tone of Sixto's life for years to come.

Sixto's background may have prepared him a little. His father is the founder of the '*Peruvian Institute for Interplanetary Relations*', so Sixto grew up in an atmosphere where talk of UFOs and meetings with contactees was something of a norm. However, he had no idea that in time, he too would be as passionately involved in things extraterrestrial, and meanwhile, got on with life, getting married, working for a local bank, and raising a family.

Sixto's main contact was Oxalc, who came from Ganymede, one of moons of Jupiter, which Sixto was subsequently to visit. One of the pinnacle moments of his life, a journey, in the physical ship, with Oxalc. Sixto maintains that his experience is not unique, and he chooses to be an ambassador, and

share his experiences. His wife and family likewise have had their fair share of connections with beings from other worlds.

The object of the contact, as Sixto explains is to create a bridge. To engender awareness and understanding in an effort to bring peace and harmony to our planet. It seems these beings have, for want of a better term, a karmic link with humanity, and are here to help, to share, as much as is possible, at the current level of human evolution, information for our progression, on all levels.

Over the years Sixto has been involved in many groups, giving interviews around the world, and arranging for the world's media to be present at pre-arranged UFO meetings. People from many countries have joined him at these events, during some gatherings and some have been able to go through a Xendra or 'dimensional doorway' as it manifests, appearing as a vivid blue or gold light. This 'doorway' allows inter dimensional experience. An ISP to the cosmos. Those who go into it, are often seen to vanish, and return 15 or 20 minutes later, but feeling as if they have been away for a couple of weeks.

There are too many elements to write of here, about Sixto's journey to Ganymede, but he noted that it's a monogamous community, where partners choose each other through aura compatibility, though he said it was difficult to know who was with who, as everyone expressed care and love for each other. Sixto has written several books about his experiences, though in Spanish, with the exception of 'The Invitation,' which you can find in English about the start of Sixto's amazing experiences. Of the many other books, there are some English translations, and further information can be found on the following websites:
